Policy Number: <b>GH-LOC-28161-180930</b> Effective Dates: <b>09/30/2018 - 09/30/2019</b>	07/01/2019	05/26/2014	Dr. Arundhuti Banerjee (Medical Marketing Management dba Honor Medical Staffing),	Harsh, Ryan	Suit	Failure to Diagnose	OPEN	\$100,000.00	\$0.00	\$50,000.00	\$0.00	\$150,000.00
	Summary: Lawsuit alleging medical malpractice. Dr. Arundhuti Banerjee is an independent contractor of Honor Medical on assignment at McLaren Port Huron Hospital during the time at issue. Ryan Harsh, age 36, allegedly woke up and suffered a fall on the morning of May 25, 2014. He was taken via ambulance to McLaren Port Huron Hospital. The ER physician ordered a brain CT without contrast, which was read by radiologist, Dr. Coop as showing questionable area of decreased attenuation in the posterior right parietal region. According to the Complaint, Dr. Coop allegedly recommended a repeat CT with sedation and a post-contrast study. Harsh was diagnosed with altered mental status and was admitted to an observation floor. Dr. Banerjee was the attending physician on the floor. The neurology consultation allegedly confirmed Harsh suffered an acute ischemic stroke in the right middle cerebral artery and he appeared to have global aphasia. On May 26, 2014 he allegedly had a full cardiac arrest, was intubated and taken to the ICU. The Complaint alleges that a repeat CT scan without contrast was performed and read by Dr. Coop as showing a large right MCA infarct with mass effect and an 8 mm subfalcine shift to the left. Allegedly, this study was performed after the code event and over 30 hours after the first CT was completed. Harsh died on May 31, 2014. We have retained Kevin Lesperance of Henn Lesperance to represent Dr. Banerjee in this matter. Dr. Banerjee maintains that the care provided was appropriate and Harsh was outside of the window for administration of tPA. Once additional information becomes available, we will reassess the potential exposure.											
Policy Number: <b>GH-LOC-001-170930</b> Effective Dates: <b>09/30/2017 - 09/30/2018</b>	08/02/2018	06/07/2016	Dr. Winston Mitchell Medical Marketing Management dba Honor Medical Staffing,	Willhite, Barbara	Suit	Anesthesia	Open	\$100,000.00	\$0.00	\$25,457.44	\$24,542.56	\$150,000.00
	Summary: Suit alleging wrongful death. Barbara Willhite, age 69, suffered respiratory distress following pre-operative anesthesia provided by Dr. Mitchell (locums insured) on June 7, 2016 at Presence St. Mary's Hospital. Willhite died 4 days later, on June 11, 2016. Dr. Mitchell performed a supraclavicular nerve block, which was uneventful. Willhite reportedly experienced shortness of breath when transferring to the operating table. Dr. Mitchell administered Fentanyl and Propofol, which reportedly allowed Willhite to be lowered to the supine position. Shortly thereafter, her heart rate decreased. Positive ventilation was administered and CPR was initiated. She was intubated and transferred to the ICU. Life support was discontinued on June 11th. Plaintiff alleges that Dr. Mitchell administered Fentanyl and Propofol when it was unsafe to do so and failed to timely recognize Willhite was in respiratory distress.											
	05/22/2018	10/06/2016	Dr. Derrick Harper Medical Marketing Management dba Honor Medical Staffing,	Yats, Claudia	Suit	Failure to Diagnose	Open	\$300,000.00	\$0.00	\$99,443.18	\$556.82	\$400,000.00
	Summary: Attorney notice of intent, dated 5/9/2018 alleging medical malpractice. On 10/6/16, Claudia Yats, age 57, presented to the ED at MidMichigan Medical Center – Clare with complaints of abdominal pain, episodes of vomiting, recent fall/umbilical hernia and no bowel movement since her fall. Dr. Harper interpreted the CT of the abdomen and pelvis and diagnosed her with sigmoid diverticulosis without definite diverticulitis. Yats was given a suppository and diagnosed with constipation, UTI, abdominal pain and diabetes, and she was discharged. On 10/10/16, Yats returned to the ED and was diagnosed with bowel obstruction and underwent surgery. The NOI alleges a four day delay in diagnosing the bowel obstruction due to Dr. Harper's alleged failure to accurately interpret and report the abnormal finding on the 10/6/16 CT. This allegedly resulted in a perforation of the colon, sepsis, the need for emergency surgery and an ileostomy.											
	02/23/2018	04/28/2017	Dr. Derrick Harper Medical Marketing Management dba Honor Medical Staffing,	Gallo, George	Suit	Failure to Diagnose	Open	\$500,000.00	\$0.00	\$64,912.76	\$10,087.24	\$575,000.00
	Summary: The insured received an attorney NOI, dated 2/13/18, alleging negligence in connection with the care provided by Dr. Harper. Gallo, age 43, was diagnosed with atrial fibrillation by cardiologist, Dr. Esan (separately insured), on 1/28/16 and underwent an atrial ablation procedure on 3/28/17, performed by Dr. Esan with complications. On 4/28/17, Gallo presented to the MidMichigan - Clare with increased confusion. Dr. Beaudoing (ER doctor) ordered a CT-A, which allegedly indicated an esophageal injury but was allegedly not recognized or reported. Dr. Harper (insured locums radiologist) over-read the CT-A and allegedly also failed to recognize and report the esophageal injury. Gallo was transferred to MidMichigan - Midland. The atrial esophageal fistula was not recognized until 3 days later. Allegedly, Gallo was diagnosed with esophageal fistula, viral meningitis and suffered a severe brain injury. Gallo reportedly has limited control of his head and extremities. The esophageal fistula was a complication of the procedure performed by Dr. Esan.
